

With the fall season underway leaf piles are in abundance due to the hard work & diligence of our City's residents raking their leaves.

However, these leaf piles can create hazards to curious children and animals when piles are raked directly into our City's streets. Wet leaves can also create blockage to our city sewer system and slick streets on dark, rainy fall nights.

In order to keep streets safe for all, we are reminding our hard working City residents to please keep leaf piles collected on your terrace and off of city streets until **THE DAY BEFORE** your scheduled clean up date. You may verify your date for leaf pick up on the city website, on our own channel 19, notices placed in the Hillsdale Daily News or by calling the Hillsdale City Clerk office at 437-6467.
